Monthly Environmental Snapshot For The Ferns Care Home

For the month of August 2026 – 100% of your waste was recycled or recovered

Total carbon emissions for waste streams this month

59.16 Kg CO₂e

Total carbon emissions for waste streams year to-date

448.80 Kg CO₂e

Recycled Weight 1,234kg

Recovered Weight 1,546kg

Unrecoverable Weight 0kg

You produced **13% more** waste this month compared to last month

You recycled **21% more** waste this month compared to last month

You have saved **990 Kg CO₂e** this month by recycling

You recovered enough waste to generate **850 KWH** of electricity to power **0 3** bed houses for a year

Some of Your Recycling Achievements This Month

Food to power 10 smartphones for 32 days

Cardboard to save 17 gallons of oil

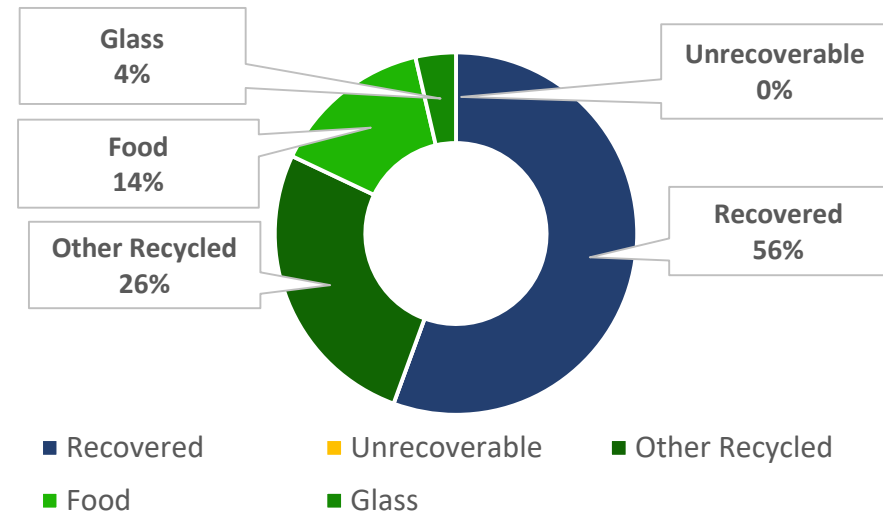

Dry Mixed Recycling to save 4 trees

Glass to create 400 new glass bottles

Breakdown of Waste Produced This Month...

**Please note that whilst we endeavour to use actual weight data, this data may include some average weights, where actual data is unavailable.*
